OBJECTIVE

Software Engineer with 3+ years of experience building web and mobile applications using React, React Native, and Laravel. Experienced in remote collaboration, cross-platform development, and delivering scalable solutions for international clients.

EXPERIENCE

Software engineer

Bysur | 122 Av. de Wagram, 75017 Paris, France | Remote

Jan 2024 - Present

- Architected and deployed 5+ production web and mobile applications using React and React Native (Expo), resulting in a 25% improvement in cross-platform performance.
- Optimized custom Shopify and WordPress features for international clients, reducing page load times by 15% and enhancing SEO ranking.
- Integrated modern REST APIs and tRPC services to streamline data synchronization between frontend and backend systems.

Freelance

Tunisia

Jan 2023 - Present

- Engineered custom mobile and web solutions using Laravel and React, delivering functional technical products for 100% of client-driven projects.
- Designed and implemented secure REST APIs to support complex business logic and third-party integrations.
- Translated diverse business requirements into scalable technical architectures for a variety of international industries.

Sofrecom - Tunis

Tunisia

Jan 2022 – Feb 2023

- Developed scalable web application features using React and Node.js within an Agile/Scrum environment, increasing feature delivery speed by 20%.
 - Spearheaded the integration of backend services with frontend components to ensure seamless data flow and improve application stability.
 - Collaborated in a team-driven environment to refactor legacy code, reducing technical debt and improving code maintainability.
-

EDUCATION
